tento font ked vidim tak hned viem ze AHA to robil codex xd

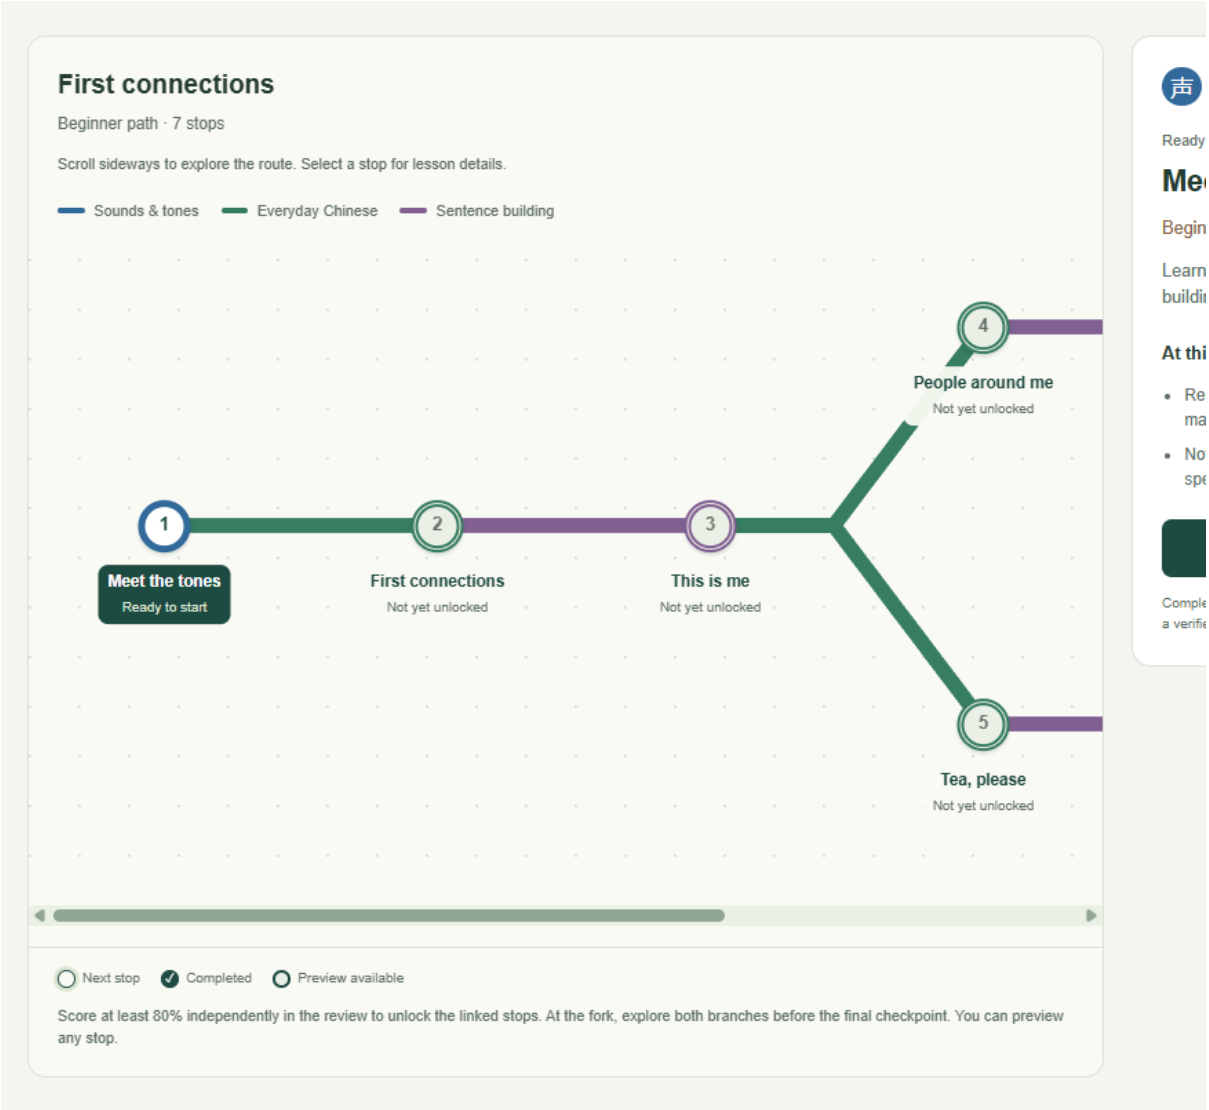

to iste s tymto fontom

same here

tak isto vsade kde je taky bloated text co si aj tak nikto neprecita lebo user intuitivne klikne aj tak, tak daj prosim ta prec zbytocne odobera pozornost oci

teraz je tento path roztiahnuty ze ho nie je vidno naraz cely co je skoda pacilo by sa mi keby je vidiet cely naraz

random mi tiez napadlo nieco take fancy nieco do backgroundu nieco z cinskych znakov vytvorit minimalisticke ale elegantne co vyplni to prazdne pozadie
